

Congratulations to your brand new SX-60.

- i. Connect the power adapter between port **1** and the power outlet
- ii. Connect the included Ethernet cable (or any cross-wired twisted-pair RJ45 cable) between a workstation and the second ethernet port **2**
- iii. Assign **DHCP or 172.16.0.2** to the workstation
- iv. Go to **172.16.0.1** using your browser of choice
